R. I. Manning Ejects Bleaselsm. Richard I. It came unexpectedly as Mr. Manning had constantly pleaded that factionalism be laid as de, and for this very reason he was taken to account at the meeting at St. Matthews by W. C. We also note with pleasure that you will give a longer time limit if necessary than you did last year. However, we regret to see that you have designated banks in the same cities as last year to handle these deposits. 'Our observation of the working of the plan last year was that many of the banks in which you deposited this fund were not in accord with your policy, and required 6 per cent for the funds you let them have at 2 per cent, and in some instances required the 25 per cent of the sum borrowed stay on deposit, thus making this money cost some country banks as much as 8 per cent

"To a large extent this policy defeated the object and aim of your action, viz., that cheap currency should be abundant in the farming districts. We do hereby urge upon you that you deposit these government funds, with the banks that come closest to the farmers, and not require these banks to pay tribute to intermediary banks who are not in sympathy with the farmers, nor with their purposes.
